JULIO CESAR TAVAREZ

Full-Stack Web Developer | C#/.NET | SQL Databases | Web Application Development

Logan, UT | 208-201-0917 | tavarez.julio2020@gmail.com | linkedin.com/in/tavarzjulio | juliotavarezportfolio.net

PROFESSIONAL SUMMARY

Full Stack Web Developer experienced designing, developing, and maintaining database-backed web applications using C#, ASP.NET MVC, JavaScript, SQL, and REST APIs. Proven experience modernizing legacy systems, building internal business applications, integrating relational databases, and troubleshooting production issues. Currently serving as a DevSecOps Engineer at Space Dynamics Laboratory while pursuing a Master of Science in Computer Science.

TECHNICAL SKILLS

Web: ASP.NET MVC, .NET, Razor, Bootstrap, HTML5, CSS3, JavaScript, AJAX, REST APIs
Databases: Oracle SQL, PostgreSQL, SQL Server, MySQL, Relational Database Design
Programming: C#, Python, C/C++, SQL
Tools: Git, GitHub, Gitea, Jira, Docker, Jenkins, Linux, SQL Management Studios, MySQL Server

PROFESSIONAL EXPERIENCE

Space Dynamics Laboratory - Student DevSecOps Engineer (June 2026 - Present)
• Support software engineering teams through DevSecOps automation, CI/CD pipelines, testing, maintenance, and deployment activities.
• Collaborate with developers using Jenkins, Docker, Linux, and Jira in Agile environments.

Wilcox Fresh - Contract Full-Stack .NET Developer (June 2025 – May 2026)
• Developed and maintained database-backed web applications using C#, ASP.NET MVC, Razor, JavaScript, HTML/CSS, and Bootstrap.
• Designed reporting solutions utilizing Oracle and PostgreSQL relational databases.
• Modernized legacy Classic ASP applications into maintainable .NET MVC applications.
• Built responsive user interfaces using Bootstrap, HTML5, CSS3, and JavaScript while collaborating with stakeholders to improve user experience.
• Troubleshot and resolved application and database issues across existing systems.

BYU-Idaho - Teaching Assistant (September 2024 – April 2025)
• Mentored students in programming and web development; assisted with debugging and problem solving.

RexTech/3io – Full-Stack Intern (July 2024 – September 2025
• Contributed to database-backend web Projects using PHP, WordPress, and PostgreSQL.

SELECTED PROJECTS

Gold Note: Full-stack music education web application using C#, .NET, SQL Server, and JavaScript. Designed teacher/student workflows, enrollment management, feedback, and practice tracking.

EDUCATION

Utah State University - M.S. Computer Science (In Progress)
Brigham Young University-Idaho - B.S. Software Engineering (Dec 2025)
